

# Master of Applied Econometrics (32 units)

## Program Code: 5632

### Program Structure (from 2021-2022)

It is important that you read and understand the following information.

To be eligible to enrol in the **Master of Applied Econometrics (32 units)** you must satisfy the entry requirements as outlined in the program rules.

The following information is designed to help you plan your enrolment. Please note it is intended as a guide only; you should check the scheduling of courses each semester. Further information can be found in the official rules and course lists under the **Program Rules and Requirements** link on the Courses and Programs website: [https://my.uq.edu.au/programs-courses/program.html?acad\\_prog=5632](https://my.uq.edu.au/programs-courses/program.html?acad_prog=5632)

## **PROGRAM GUIDELINES**

You must complete:

- 22 units for MAppEmet (32 units) Core Courses
- 10 units for MAppEmet Program Elective Courses

**Core courses - students are required to complete one of either ECON7320 Advanced Microeconometrics or ECON7380 Advanced Macroeconometrics. If studying full-time, your commencement semester will likely determine which course (ECON7320 or ECON7380) that you will have the pre-requisite background to do.**

If Exemptions apply for Core courses, students are to undertake replacement Elective courses. With Head of School approval, a student may include 2 units for a level 7 course towards Electives.

If you wish to seek approval to include one 2 unit Elective course from outside the electives list, the course must complement your program of study. An application can be submitted using the School's form: <https://economics.uq.edu.au/files/4937/PGCW-Non-scheduled-elective-Application-form.pdf>

***The following is a suggested study plan only. There may be other ways to plan your progression through this program.***

The study plan ensures pre-requisite courses are completed first. Students should not attempt courses where they have not completed the UQ pre-requisite(s) or an alternative comparable course completed at undergraduate or postgraduate level.

Students who wish to complete the #4 Thesis course as a Elective as ECON7930 (single semester) or ECON7933 (year-long commencing in semester 1) or ECON7934 (year-long commencing in Semester 2) should complete both pre-requisite courses prior to enrolling, i.e. ECON7310 Elements of Econometrics and ECON7950 Research Methods in Economics. Further information is available from the Course Profile (ECP).

Not all courses are offered every semester and/or every year. Check courses offerings prior to enrolling.

You are not required to submit this program plan for approval. However, if you have any questions or concerns about meeting degree requirements, please contact the School of Economics at: [econ.pgrad@uq.edu.au](mailto:econ.pgrad@uq.edu.au).
